

GET A NALOXONE KIT AND SAVE A LIFE!

EXAMPLES OF OPIOIDS:

Methadone	Oxycodone or
Fentanyl	OxyNEO
Dilaudid	Tylenol #1, 2, 3, 4
Heroin	Suboxone
Hydromorphone	Butrans
Percocet	

Do you use opioids, or know someone who does?

If so, please ask a member of the pharmacy team about how to receive a **free** naloxone kit and brief training from a pharmacist.

Naloxone is a short-acting opioid antidote that temporarily reverses the effects of opioids if there is an overdose.

Naloxone can save a life!
